IMPORTANT NOTICE

The provisions of Distance Table 8 shall apply to the distance rates in the minimum rate tariffs governed thereby when so indicated in the individual tariffs.

The official Distance Table 8, in two parts, contains Rules, Constructive Mileage Tables and Constructive Mileage Maps, was established by Decision No. 84332 in Case No. 7024. Changes to the official table will be made by issuing supplements.

In the event of any conflict between this table and the official Distance Table 8, the official Distance Table 8 shall govern.

FORWARD

This optional "All Points to All Points" Distance Table sets forth constructive mileages to be used in determining distance rates for the transportation of property between points in the State of California. The distance between points may or may not be actual highway mileage, depending upon certain variable factors. Distances different from actual miles have been developed by making adjustments for variations in motor vehicle operating conditions caused by the following:

(1) Elements of highway design, such as grades and alignment.

(2) Elements of highway traffic, such as congention and controls.

The optional "All Points to All Points" table sets forth distances between all named points including both red points and black points and is provided as a supplement and a convenience for users of the official Distance Table 8. The Index of Numbered Junctions, Rules of General Application, Metropolitan Zone Descriptions, Metropolitan Zone Group Descriptions, Mileage Territory Descriptions and Described Extended Areas set forth in this table are reproduced in their entirety from Part 1 of Distance Table 8, solely for the convenience of the user. Certain provisions contained therein are not applicable to this optional table and, as such, are not to be used to abrogate the basic provisions of the official Distance Table. In the event of any conflict between this optional table and the official table, the provisions of the official Distance Table 8 as set forth in Sections 1, 2 and 3 of Part 1, and the Constructive Mileage Maps in Part 2, the basic provisions of the official Distance Table shall govern.

INDEX OF POINTS - EXPLANATION OF SYMBOLS AND REFERENCES

This index lists all Red Points and Black Points from and to which specific mileages are shown herein by use of index numbers, by reference to other points, including Metropolitan Zones, Incorporated Cities or their extended areas.

A. Explanation of certain symbols and references used in the columns captioned "Point" or "Community".

1. All cities, communities, and points are listed alphabetically.

2. All Metropolitan Zones and numbered junctions are listed numerically.

3. # Indicates a Red Point; absence of symbol indicates a Black Point.

4. + Indicates the Point, community or other named area is subject to the provisions contained in Notes 1 or 2 below.

5. * Indicates an incorporated city, not within a Metropolitan Zone. (See Note 3)

B. Explanation of symbols and references used in the columns captioned "Index Number".

1. When a number only is shown under the column headed "Index Number", such number represents the Index Number of the point opposite which the number appears. The Index Numbers listed in the index are used as column and heading entitled "CITY" in the table, Section 3, for the location of the constructive mileages. The Index Numbers of the Metropolitan Zones are the same as the Metropolitan Zone number.

2. MZ followed by more than one number (as "MZ 204, 205, 215") refers to the Metropolitan Zones of those numbers. Where reference is thus made to more than one Metropolitan Zone, the community or other named area lies partly within each of such Metropolitan Zones. The Constructive Mileage shall be that applicable from and to whichever of such Metropolitan Zones encompasses the Point in question. (See Note 1)

3. "SEE" followed by the name of an incorporated city (as "SEE # * LIVERMORE," or "SEE * AMADOR CITY") indicates that the Point or community lies wholly within the exterior limits of that incorporated city, or within the Extended Area of that incorporated city. The Constructive Mileage shall be that applicable from and to the Mileage Basing Point for such incorporated city in accordance with Rule 2. (See Note 2)

4. "SEE" followed by the name of an unincorporated community or other named area ("SEE # CROCKETT") indicates that the Point or community lies within the Extended Area of such unincorporated community, or other named area. The Constructive Mileage shall be that applicable from and to the Mileage Basing Point for such unincorporated community, or other named area in accordance with Rule 2. (See Note 2)

(Continued)

INDEX OF POINTS - EXPLANATION OF SYMBOLS AND REFERENCES (Concluded)

5. "SEE" followed by the name of more than one incorporated city, unincorporated community or other named area or any combination thereof (as "See # * Antioch and # * Pittsburg") indicates that the Point or community lies within the Extended Area of each of such incorporated cities, unincorporated communities or other named areas, as the case may be. The Constructive Mileage shall be that applicable from and to whichever of such Mileage Basing Point governs the Point in question in accordance with Rule 2. (See Note 2)

6. "SEE" followed by the name of a Described Extended Area (as "SEE BAKERSFIELD EXT AREA") indicates that the Point or community lies wholly within such Described Extended Area. The Constructive Mileage shall be that applicable from and to the Mileage Basing Point for such Described Extended Area. (See Note 2)

7. "SEE" followed by the names of more than one Described Extended Area (as "SEE SACRAMENTO EXT AREA and NORTH SACRAMENTO EXT AREA") indicates that the Point or community lies partly within each of the Described Extended Areas. The Constructive Mileage shall be that applicable from and to whichever Mileage Basing Point governs the Point in question in accordance with Rule 2. (See Note 2)

NOTE 1.--Where the Point, community or other named area is prefixed with the symbol "+", indicates that the Point, community or other named area lies partly within the Metropolitan Zone or Zones referred to and partly without, but other than within another Metropolitan Zone. The Constructive Mileage shall be that applicable from and to whichever Mileage Basing Point governs the Point in question in accordance with Rules 2 and 4.

NOTE 2.--Where the Point, community or other named area is prefixed with the symbol "+", indicates that the Point, community or other named area lies partly within and partly without the Extended Area or Areas referred to. The Constructive Mileage shall be that applicable from and to whichever Mileage Basing Point governs the Point in question in accordance with Rules 2 and 4.

NOTE 3.--All incorporated cities, not within a Metropolitan Zone, are not prefixed with an asterisk nor designated by name in the Index of Points.

RULES OF GENERAL

APPLICATION

Rule	SECTION 1 - RULES OF GENERAL APPLICATION

DEFINITIONS OF TECHNICAL TERMS

(a) ACTUAL HIGHWAY MILEAGE means the actual highway distance along the shortest usable route.

(b) AIR-MILE means a statute mile measured in a straight line without regard to terrain features or differences in elevation.

(c) APPLICABLE METROPOLITAN ZONE GROUP means the particular Metropolitan Zone Group encompassing the Metropolitan Zones in question.

(d) CLOSEST POINT means that Mileage Basing Point which is closest, when measured on an air-mile basis, to the precise location, subject to Rule 2(i).

(e) CONSTRUCTIVE MILEAGE means the mileage determined in accordance with the rules of this Distance Table.

(f) CONSTRUCTIVE MILEAGE MAPS means the Constructive Mileage Maps 1, 2, 3 and 4 as contained in Distance Table 8 Book of Maps, Part 2 of 2 Parts.

1 (g) DESCRIBED EXTENDED AREA means an area described in Section 2-D.

(h) EXTENDED AREA means a Described Extended Area, or the area in the vicinity of a Mileage Basing Point as established by Rules 2(f) and 2(g).

(i) METROPOLITAN ZONE means a zone as described in Section 2-A.

(j) METROPOLITAN ZONE GROUP means a single group of Metropolitan Zones as provided in Section 2-B.

(k) MILEAGE BASING POINT means the precise location designated to represent the following: Metropolitan Zone; Described Extended Area; incorporated city, unincorporated community or other named Point, Numbered Junction, or extended area thereof; or, Unnumbered Junction.

(k-1) RED POINT means a Mileage Basing Point shown in red on the Constructive Mileage Maps (See Rule 6).

(k-2) BLACK POINT means a Mileage Basing Point shown in black on the Constructive Mileage Maps. The location of such Mileage Basing Point is the post office (the main post office if there be more than one post office), or, if there is no post office, then the center of the community.

	DEFINITIONS OF TECHNICAL TERMS (Concluded)
1	(k-3) NUMBERED JUNCTION means a Mileage Basing Point located at a highway junction identified by number on the Constructive Mileage Maps and described in the Index of Points-Numbered Junctions. (k-4) INCORPORATED CITY (other than Red Point, Black Point or Numbered Junction) means a Mileage Basing Point located at the post office (the main post office if there be more than one post office) or if there is no post office, then the center of the city. (k-5) UNNUMBERED JUNCTION means a Mileage Basing Point located at a highway junction shown on the Constructive Mileage Maps but not identified by number. For the purpose of this distance table, an Unnumbered Junction shall not have an extended area. (See Rule 2 (g)). An Unnumbered Junction may not be used as a terminal point in determining Constructive Mileage from or to points located within a Described Extended Area, nor within the exterior limits of an incorporated city nor within the Extended Area of an incorporated city, unincorporated community or other named point or Numbered Junction. (l) MILEAGE TERRITORY means any single territory as provided in Section 2-C. (m) POINT means the precise location to or from which Constructive Mileage is to be determined. (n) RELATED MILEAGE TERRITORY means the particular Mileage Territory encompassing the Metropolitan Zone or Metropolitan Zone Group in question. (o) SEGMENT OF HIGHWAY means that portion of a highway between two consecutive Mileage Basing Points.

Rule	SECTION 1 - RULES OF GENERAL APPLICATION (Continued)	
2	For a Point located within a Metropolitan Zone, an incorporated city or an Extended Area, the Constructive Mileage from or to such Point shall be determined from or to the Mileage Basing Points indicated as follows: (See also Rule 5).	
	IF THE POINT IS:	USE FOR CONSTRUCTIVE MILEAGE DETERMINATION THE MILEAGE BASING POINT:
	(a) Within a Metropolitan Zone,	for the Applicable Metropolitan Zone Group if the mileage is being determined between said Point and a Point outside of the Related Mileage Territory; otherwise, the Metropolitan Zone within which said first Point is located.
	(b) Within a Described Extended Area,	for the same Described Extended Area.
	(c) Within the exterior limits of an incorporated city, no part of which is within a Metropolitan Zone, nor within a Described Extended Area,	for the same incorporated city.
	(d) Within the exterior limits of an incorporated city, a portion of which is within a Metropolitan Zone or Zones,	for the same incorporated city, except: (1) when the Point is located within a Metropolitan Zone the Mileage Basing Point applicable for the Metropolitan Zone shall apply, or (2) when the Point is located within a portion of the city which does not have a designated Mileage Basing Point apply the Mileage Basing Point which is closest to the precise point, subject to paragraph (i).
	(e) Within the exterior limits of an incorporated city, a portion of which is within a Described Extended Area,	for the same incorporated city, except: (1) when the Point is located within a Described Extended Area the Mileage Basing Point applicable for the Described Extended Area shall apply, or (2) when the Point is located within a portion of the city which does not have a designated Mileage Basing Point apply the Mileage Basing Point which is closest to the precise point, subject to paragraph (i).
	(Continued)	

Rule	SECTION 1 - RULES OF GENERAL APPLICATION (Continued)	
2	For a Point located within a Metropolitan Zone, an incorporated city or an Extended Area, the Constructive Mileage from or to such Point shall be determined from or to the Mileage Basing Points indicated as follows: (See also Rule 5). (Concluded)	
	IF THE POINT IS:	**USE FOR CONSTRUCTIVE MILEAGE DETERMINATION THE MILEAGE BASING POINT:**
	(f) Within 3-Air Miles of the Mileage Basing Point of an incorporated city, but not within a Metropolitan Zone, nor within a Described Extended Area, nor within the exterior limits of an incorporated city,	for the same Mileage Basing Point, subject to paragraphs (h) and (i).
	(g) Within 1-Air Mile of a Mileage Basing Point of other than that of an incorporated city, but not within a Metropolitan Zone, nor within a Described Extended Area, nor within the exterior limits of an incorporated city,	for the same Mileage Basing Point, subject to paragraphs (h) and (i).
	(h) Within an overlap of two or more Extended Areas in accordance with paragraphs (f) or (g), but not within a Metropolitan Zone, nor within a Described Extended Area, nor within the exterior limits of an incorporated city,	whichever is closest to the precise point.

(i) Paragraphs making reference hereto shall not apply if:

(1) the Point is separated from the Mileage Basing Point by a bay, river, strait or other body of water, and

(2) there is no toll free highway bridge across said body of water within the limits of the incorporated city or Extended Area provided in such paragraphs.

EFFECTIVE JULY 1, 1975

ISSUED BY THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA, SAN FRANCISCO, CALIFORNIA.

Rule	SECTION 1 - RULES OF GENERAL APPLICATION (Continued)	
3	Constructive Mileage between Mileage Basing Points shall be determined as follows:	
	BETWEEN:	THE CONSTRUCTIVE MILEAGE SHALL BE:
	(a) Two Red Points,	as shown in Section 3.
	(b) Two Mileage Basing Points other than two Red Points, except as provided in paragraph (c),	the total of the mileages shown on the Constructive Mileage Maps along the continuous route resulting in the least Constructive Mileage between said points; mileage between two Red Points along said continuous routes shall be determined in accordance with paragraph (a) above.
	(c) An incorporated city (other than Red Point, Black Point or Numbered Junction) and the first Red Point, Black Point or Numbered Junction contacted via the shortest usable route between such Mileage Basing Points,	1.3 times the Actual Highway Mileage between said points. When said incorporated city is intermediate to two Mileage Basing Points along a route shown on the Constructive Mileage Maps, the Constructive Mileage so determined shall not exceed the Constructive Mileage determined between said two Mileage Basing Points. Under the provisions of this paragraph, fractions shall be retained in calculating distances.

Rule	SECTION 1 - RULES OF GENERAL APPLICATION (Continued)
4	Determination of Constructive Mileage between Points other than two Mileage Basing Points: (a) Constructive Mileage between two points other than two Mileage Basing Points shall be 1.3 times the Actual Highway Mileage along the shortest continuous route, subject to paragraphs (b), (c), (d), (e) and (f). (b) If the shortest continuous route passes through two or more Mileage Basing Points, Constructive Mileage between such points shall be determined in accordance with Rule 3. (c) If the shortest continuous route: (1) intersects a segment of highway shown on the Constructive Mileage Maps at two or more locations; or (2) intersects two or more segments of highway on the Constructive Mileage Maps; the Constructive Mileage between points of intersection shall be determined via the segment or segments of highway or portions thereof shown on the Constructive Mileage Maps which results in the least Constructive Mileage between said points of intersection, as provided by paragraphs (a), (b), (d) and (e). Constructive Mileage shall be determined: (1) between point of origin and first point of intersection; or (2) between last point of intersection and point of destination in accordance with paragraph (a). (d) Constructive Mileage determined in accordance with paragraph (a) or (c) for a portion or portions of a segment of highway shall not exceed the Constructive Mileage for that segment of highway. (e) Constructive Mileage along a railroad which contacts non-highway point or points shall be the rail mileage between non-highway point and first highway contact, or shall be the rail mileage between non-highway points if no highway contact is made between the points. (f) In determining Constructive Mileage under the provisions of this rule, fractions shall be retained in calculating distances.

EFFECTIVE JULY 1, 1975

ISSUED BY THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA, SAN FRANCISCO, CALIFORNIA.

Rule	SECTION 1 - RULES OF GENERAL APPLICATION (Continued)	
5	Constructive Mileage between two Points both of which are located within a single Metropolitan Zone, incorporated city, and/or Extended Area shall be as follows:	
	BETWEEN TWO POINTS:	THE CONSTRUCTIVE MILEAGE SHALL BE:
	(a) Within a single Metropolitan Zone,	3 miles **
	(b) Within a single Described Extended Area as provided in Rule 2(b),	3 miles **
	(c) Within the exterior limits of a single incorporated city, except portions within a Metropolitan Zone, or within a Described Extended Area,	3 miles **
	(d) Within the Extended Area of a Mileage Basing Point of a single incorporated city as provided in Rule 2(f),	3 miles **
	(e) Within the Extended Area of a Mileage Basing Point as provided in Rule 2(g),	1 mile **
	**
